🐙 [tommastacconi](https://github.com/tommastacconi)

I have been passionate about technology and science since middle school. I am particularly interested in smartphones and the Android world. During my university studies I had some exposure to computer science, but it was only after a later web programming course, which strongly engaged me, that I decided to work in this field. When I am not absorbed by a screen, I am a sporty person who enjoys sharing experiences with others.

Technical skills

Languages

- HTML
- CSS
- JavaScript
- PHP
- L^AT_EX
- Matlab

Technologies

- Node.js
- MySQL

Frameworks

- Bootstrap
- Express
- Vue
- React
- Laravel

Software

CAD Autodesk Inventor
sys-
tems

Foreign languages

English *B2, First Certificate*

Projects

- Project showcase Application for *managing* a project catalogue. I implemented *CRUD* operations in Laravel to populate a MySQL database. Through APIs, the catalogue is displayed at another address with a more engaging interface built with Vue. Visit *tt-dev*.
- BDoctors Website for doctor *searches* and *reviews*, designed for doctors who want to make themselves known and for patients looking for the right specialist. At the moment, the project only has a Vue front-end interface, which relies on APIs written in Laravel. From this interface, doctor users of the platform can register and then build their own *profile*, visible to anyone visiting the website. Visit *BDoctors*.

Education

Master's course in web development, Boolean, Dec. 2024

Intensive 700-hour course in full-stack web development, with daily practical exercises.

Bachelor's degree in materials engineering, Politecnico di Milano, Sep. 2022

High school diploma, Liceo scientifico A. Volta, Milan, Jun. 2015

Work experience

Assistant, Technical studio, Milan, Feb.–Mar. 2024

Fire prevention field; reports concerning the identification of fire hazards, assessment of related risks, and description of fire prevention and protection measures; technical drawings showing escape routes and door opening directions, fire extinguishing equipment and protection systems, and emergency lighting.

Technical documentation officer, Forgiatura Moderna Arese, Arese, Jan. 2023–Jan. 2024

Preparation of inspection certificates concerning mechanical and impact tests and cast chemical analyses, as well as certificates for ultrasonic testing, heat treatments, magnetic particle testing, liquid penetrant testing, and dimensional inspection.

Waiter, Ristorante Mangiaspaghetti, Milan, Mar.–Jun. 2022

Tennis instructor, Canottieri Olona, Milan, Mar. 2022

Courses for boys and girls.

Personal interests

- Tennis is my sport and it pushes me to *never give up*. I like to imagine myself on the tennis court improving and enjoying myself, even though it is a demanding sport from a *mental* point of view.
- I am interested in cinema as a means of *knowledge* and *experience*. Through cinema I often have the chance to *immerse* myself in unknown worlds, but also to observe my own world through different eyes.
